the specification of which

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Claims 1, 4, 7, 9, 25, and 25 define page information as "successively" stored in a storage area, while the prior art did not require such a description and therefore the patentees claimed less than they had a right to claim.

Claims 19 and 20 define "successively" regarding time sequence information in a storage area, while the prior art did not require such a description and therefore the patentees claimed less than they had a right to claim.
